

# Introducing our Healthcare Sector Assessed Venues

Is compliance to regulatory code relevant to your meeting?

We recently commissioned Compliant Venues Ltd and Healthcare Venues to audit, assess and train 5 of our hotels, with an objective of delivering a more appropriate service to the healthcare sector.

Our teams, led by trained Venue Healthcare Champions, fully understand the purpose of the code and the implications it has on day-to-day activities. This includes proposing, operating and providing bespoke solutions to healthcare sector meetings.

Our experts are on hand to give you complete confidence and peace of mind that your event will be executed in a professional and sector-appropriate way.
